

Rajrishi Kashyap

Guwahati, Assam | +91-7636855807 | raj01rishi@gmail.com | [GitHub] | [LinkedIn]

Results-driven Computer Science graduate with hands-on experience in machine learning, deep learning, and statistical modeling. Proficient in Python, TensorFlow, Scikit-learn, and SQL with a strong foundation in data preprocessing, predictive analytics, and ML deployment. Actively seeking a Data Scientist role to drive data-powered decisions.

PROFESSIONAL EXPERIENCE

Hamoye

Mar 2024 - Jul 2024

Data Science Intern

Remote

- Built and optimized credit card fraud detection models (+15% accuracy, +20% F1-score).
- Automated data preprocessing pipelines reducing training time by 30%.

Afame Technologies

Mar 2024 - Apr 2024

Machine Learning Intern

Remote

- Developed predictive models for financial data using Scikit-learn and TensorFlow.
- Boosted model accuracy by 25% with feature engineering and tuning.

Mentorness

Feb 2024 - Mar 2024

Data Analytics Intern

Remote

- Automated Power BI dashboards, cutting reporting time by 50%.
- Delivered data-driven insights influencing HR/sales decisions.

IIIT

Jun 2023 - Aug 2023

Research Intern

Guwahati

- Achieved 85% accuracy in EEG-based emotion detection using ML.
- Contributed to a peer-reviewed research publication.

PROJECTS

Student Performance Predictor- [GitHub: github.com/rajrishikashyap/student-performance-predictor](https://github.com/rajrishikashyap/student-performance-predictor)

- Engineered a Random Forest-based predictive model for student performance using advanced preprocessing, feature engineering, and evaluation metrics.

SmartMed Classifier- [GitHub: github.com/rajrishikashyap/smartmed-classifier](https://github.com/rajrishikashyap/smartmed-classifier)

- Designed a CNN-driven breast cancer detection system using BreastMNIST with over 90% accuracy, and implemented interactive deployment through Streamlit.

EDUCATION

B.Tech, Computer Science & Engineering – Tezpur University (Aug 2020 – Jun 2024)

TECHNICAL SKILLS

Programming: Python, SQL

Machine Learning & AI: Scikit-learn, TensorFlow (Keras), PyTorch, Deep Learning (CNN, GAN), Model Evaluation, Hyperparameter Tuning, Imbalanced Learning

Data Analysis: Pandas, NumPy, Feature Engineering, Statistical Modeling

Visualization: Power BI, Tableau, Matplotlib, Seaborn, Streamlit

Databases: MySQL

Cloud & Big Data: AWS, GCP, Hadoop, Spark

Tools: Git, GitHub, Jupyter Notebooks, Google Colab
